Come and learn new games and learn how to play them well and win.</p> |
| <p>CAST (Ma)</p> | <p>CAST Maths is a chance to show of your best skills in Mathematics and sit in the teacher's seat. Primary schools all around will come to visit our academy, where you will be teaching them something that interests you in Maths. There will also be a tour, where you will highlight what you can gain from coming to Chelsea Academy.</p> |

| | |
|---|---|
| <p>CAST (Sc)</p> | <p>Do you enjoy science practicals? Do you have an interest in passing your science knowledge on to others? If so, CAST (Chelsea Academy Student Teachers) is the perfect Enrichment for you next term. In this Enrichment, you will teach interactive science lessons to visiting primary school students! CAST students get to learn how to do many interesting and interactive experiments and demonstrate them effectively to younger children. You will need your leadership skills as well as good teamwork to show the primary school students how exciting science lessons are at Chelsea Academy. Not only will this teaching experience look great on your CV, you'll also learn key skills and have a lot of fun.</p> |
| <p>Chess</p> | <p>For long, chess has been considered as a game played only by intellectuals and individuals with critical thinking abilities. However, the fact is that chess can be played by people of all age groups and mind sets. Chess is extremely helpful in brain development, particularly when it is played regularly from a very early age. Come along and improve your chess skills, learn how to think strategically and surround yourself with a wide range of intelligence.</p> |
| <p>Colouring for Relaxation</p> | <p>Do you ever feel really stressed out and tense on a Friday afternoon? Too many complicated thoughts running through your head? Recent research has suggested that coloring in intricate patterns has therapeutic potential to reduce anxiety, create focus or bring [about] more mindfulness. So if you're ready to completely relax in a calm environment on a Friday afternoon, choose this enrichment! Available for Years 7 - 10</p> |
| <p>Computing and Programming</p> | <p>If you are interested in computing and programming, then this is the enrichment for you. In this enrichment you will learn the basics of programming. After the basics you will learn how to code using Python language. After Python you will then learn a more up to date and current language Visual Basic. Python is procedural programming and Visual Basic is object orientated programming. This course is ideal for anyone who is interested in learning how to program and create their own app, games and websites in the future. This enrichment is very beneficial for anyone who wishes to take up Computing as a GCSE option as you will be a step ahead of everyone else on the course. The UK has a lack of people who understand how to read and write programming languages, this is an opportunity for you to become one of the select few who know how to do this!</p> |

|---|--|
| <p>Performing With Masks</p> | <p>Ever tried to hold a conversation without a face? Think it might be difficult? Come and learn how. More than that though, we'll make performances that make you laugh, that freak you out. Come and enter the weird and wonderful world of masks. Starting off, we'll try lots of different ways of performing with a mask in a professional way. Then, we'll make a totally new and original piece of theatre that shows off mask skills and entertains an audience of your choosing. Ex-claimer: you have to be ready to have a laugh and make a fool of yourself.</p> |
| <p>QPR</p> | <p>QPR Football Skills Enrichment allows students who want to continue improving their football skills. It is run on the Large MUGA and facilitated by our regular FA approved youth coach from QPR – a long standing link with Chelsea Academy. In this Enrichment students are able to learn new skills and techniques through different training exercises, as well as discuss theory of the game and the ever changing tactics. Based on progress in the session they are usually rounded off by quick 5-a-side style games to allow students to use the skills they've just developed into a match-style scenario</p> |
| <p>Rowing</p> | <p>Rowing is a fantastic enrichment to choose as your are able to get out of the classroom and onto the Thames on a Friday afternoon! You are taught how to row from scratch and this can help you keep fit and also is a great way to develop your team work skills too! You'll be taken by minibus to Fulham Reach Boat Club where the coaches there help you train with fantastic facilities and develop you as a rower. Come along and have a go and feel free to ask Miss Beadles in Science any more about if you are interested!</p> |
| <p>Rugby</p> | <p>Chelsea Academy Rhinos Rugby Team</p> <p>Rugby is one of the toughest sports in the world. It is a sport that develops physicality, mental toughness, communication, team-work and self discipline. What you put in, you get out.</p> <p>Rhinos play fixtures throughout the year, and train during enrichment and on a Monday after school. If you are a year 9 or 10 boy, and would like to play rugby for Rhinos, you should see Mr Walls beforehand to express your interest.</p> |
